

Helping You Reach **Zero Waste Goals** with TLMI's Liner Recycling Initiative

At TLMI, we know sustainability is more than a buzzword—it's a business imperative. That's why we created the **Liner Recycling Initiative**, a program designed to help companies that use labels turn a long-standing challenge into a sustainability win.

linerrecycling.com

Turn **Waste** into **Opportunity**

Release liners have traditionally been difficult to recycle and often end up in landfills. Our initiative connects you with trusted recycling partners who collect and repurpose used liners into new products like tissue, paper, and construction materials.

The result?

- Less waste to landfill
- Lower disposal costs
- Clear progress toward zero-waste goals

Show Your Customers You Lead on Sustainability

By joining the initiative, you're not just reducing waste—you're proving to your customers and stakeholders that your brand is committed to circular solutions and environmental leadership.

Take the next step toward zero waste.
